

The Media Audit Software

Arbitron Qualitative Adjustments Via Rolled PPM Monthly Data

- **The Media Audit Software**...can provide competitive media analyses that no other media software program can easily duplicate...and which is the most user friendly software program of any qualitative media software program available anywhere.
 - **Rolled PPM Monthly Qualitative Adjustments** can be used to:
 - Compile a two-month average PPM qualitative adjustment...or up to a 12 month rolled-average to eliminate monthly bounces in the PPM data via The Media Audit.
 - The PPM Monthly Qualitative Adjustments can be created in...
 - The Media Audit Ranker Reports
 - The Media Audit Composition Reports

Creating this analysis only requires two simple tasks...

- Click on Options in The Media Audit main menu where you will see a list of Arbitron monthly PPM selections, then...
- Click on the number of monthly PPM selections that you want to include in your presentation.
- Then click on "Average from Selected".
- Then click on Ranker in The Media Audit main menu. A small screen will pop up that defines the PPM months you selected. Click OK and you will get a list of radio stations for selection.
 - Select the stations that you want to include in the analysis.
 - Click OK...then click on the qualitative target that you want to include in the ranker report.
 - Now click on the arrow in the tool bar that points to the right until you get to the Arbitron day part you want and then Click Print.
 - You will get two pages like the ones you will see on the other side of this page.

THE MEDIA AUDIT

RANKER REPORT
Arbitron Come Rating: Mon-Sun 6 am-Midnight
USER PPM AVG.

REPORT MARKET: CHICAGO, IL
REPORT BASE: ADULTS AGE 18+
